REFLECTED ADVICE

In there, under any government

in the world, more absurdity in

the advice given out to farmers by

spokesmen of the administration

under President Hoover?

"Reduce acreage, avoid over-

production" that was the advice

given by the United States De-

partment of Agriculture last Jan-

uary.

"Increase acreage and produc-

tion else the Tariff Commission

will lower the duty and adjust the

quantity of Mexican vegeta-

bles" that is the warning now

given to Florida growers now?

How little respect the Depart-

ment of Agriculture commands

was illustrated in the fact that

the acreage was increased.

In consequence of the increase

in acreage, the effect of the

drought was largely discounted.

The chief effect of the Hoover

farm policy has been to put more

professional politicians on jobs

and build up the bureaucracy in

the Department of Agriculture.

FREIGHT RATES

Florida obtained a reduction in

freight rates on citrus amounting

to more than \$1,000,000 annually,

by the decision of the Inter-

state Commerce Commission July

20, 1924, as a result of the ac-

tivities of the Growers & Shippers

League and State Railroad Com-

mission in their effort to secure a

readjustment of the freight rate

structure on citrus from Florida.

Information is lacking, however,

as to whether the rate reduc-

tion has been made under which

Florida vegetables were to get

equality with Texas products.

Mrs. W. E. Swain visited Mrs. J. Mark Wilcox Wednesday and Thursday.

Robert Knight has been visiting Mrs. W. E. Swain and also Mrs. W. L. McGuff of Okeechobee.

Mrs. W. L. McGuff of Okeechobee, Miss Louise Knight of Miami and Robert Micker of Tallahassee were guests of Mrs. W. E. Swain Tuesday.

Edward Jensen made a business trip to Jacksonville this week.

W. J. Marsh, W. L. McGuff and W. E. Swain were in a fishing party at Jupiter Thursday night.

Mrs. C. C. Clem and Mrs. J. H. Tidwell motored to West Palm Beach Friday.

Mrs. Pearl Morrison visited friends and relatives in West Palm Beach this week.

Mrs. Crutcher and two daughters, who have been visiting here with her son expect to return to their home in Alton, Ill., soon.

Irma Tidwell is visiting friends and relatives in Port Pierce this week.

Mr. and Mrs. James Ray and son Roy enjoyed a fishing trip near Indianland Sunday.

T. S. Spencer and family returned Friday from their vacation in Georgia.

Miss Lulu Barfield returned this week from two weeks visit with friends and relatives in West Palm Beach.

Jack Zuck was feeding chicks into an automatic planing machine when he was shot by Chicago gangsters, which suggests that the gangsters have an appreciation of music.

Embassies of the Bolsheviks procured at Miami a series of motion picture films of Everglades drainage district operations, to be exhibited in the Union of Socialist Soviet Republics, probably as examples of what to avoid.

The business managers of the Miami Herald and the Palm Beach Post are running just exactly the kind of articles that do the most harm—encouraging the hope that a boom and easy money are close at hand and thus discouraging the economy that should be practiced and the hard work that ought to be done.

COBB HELPS COCHRANE
Wm. A. Cobb of West Palm Beach is assistant to J. P. Cochrane as liquidator of the defunct Peoples Bank of Okeechobee.

NEGRO SCHOOL OPENS
The school at the sugar mill for colored children is open. The colored schools always open earlier than the white schools so the negroes will be out of school when farm work starts.

CITY ATTORNEY
L. W. Jennings having resigned as city attorney of Okeechobee because he has moved to Jacksonville, Tom W. Conley was elected to succeed him. His salary is \$50 a month.

BURKE'S POULTRY
E. E. Burke, supervisor on the P. E. C. railroad, has come into the poultry business at Okeechobee, the News reports, and has bought some really made chicken houses—or mansions, as the News calls them.

Mr. and Mrs. C. A. Yarbrough and daughter, Miss Lulu Barfield, returned this week from a few weeks trip to the west coast.

Four visitors from Fort Lauderdale were in attendance at the services of the Methodist church of Pahokee Sunday and were the guests of the pastor and his wife, Rev. and Mrs. Joe A. Tolle. The visitors were from the church that Rev. Tolle served last year; they were Miss Katie Phillips, Miss Martha Larson, Floyd Hamilton and Julian Kendrick.

Mayor W. J. Larrimore has returned from his trip to South Carolina. He says there is a good corn crop and a good cotton crop.

Marshall "Pete" Harrison has been back on duty for a week, having returned from the Veterans' Hospital in which he was confined while he recovered from injuries received in a car collision.

J. C. Grant returned Wednesday from Miami and is starting preparations for farmers to vend the land dry and the ground just right for plowing. He will again put in some onions.

The Mull brothers returned this week from Plant City and on their way home noticed considerably less water in the Kissimmee river area.

Several places of business have been re-opened, the proprietors having returned from vacation.

ORECHOREE TEACHERS
R. F. Shuler has been employed to teach the Flatts Blue school. Miss Stella Johnson as principal at Bussenger and Mrs. Cora Curtis as assistant.

Both use type and presses, but there is a difference between a job printing office and a newspaper; this distinction is not at all obvious, and that is the reason I am calling attention to it.

HEAVY OUTPUT OF DELIVERY TRUCKS

An increase of twenty per cent in production of light delivery trucks during the first half of this year over the same period in 1935 is announced by Sidney Corbett, manager of the commercial car division of the Chevrolet Motor Company.

Figures for the comparable period last year show 27,236 units as against 22,813 in July last year.

This production increase Mr. Corbett attributed to the need for light delivery trucks in federal, state, municipal and public utility construction projects now under way, and to the growing use of the light truck in rural sections.

Farmers, especially, are finding the light delivery an economical and necessary addition to their equipment, he said, and the wide variety of body types, available enables the user to choose the exact body for the work to be done.

While commercial car production is necessarily a minor part of the total output of the Chevrolet Motor Company, Mr. Corbett pointed out that it is accounting for a constantly increasing proportion of each year's output. The company first began building commercial cars in 1916, he stated, and since that date 1,600,000 units had been built, or in the ratio of better than one commercial car to each six passenger cars.

Grandmothers at Twenty-two
In India there are more than 5,000,000 child wives, of whom nearly 4,000 are under five years of age. Not one of the girls under five are widows, and it is not unusual to find girls who are grandmothers at the age of twenty-two.

The Moore Haven and Cleveland baseball teams had an interesting contest on Sunday. Quite a number of local people were in attendance.

Charles B. McKibbitt of Miami was a guest in the home of Mr. and Mrs. Richard F. Morris at Miami lake Tuesday evening and Sunday.

The thermometer registered 95° at Miami lake on Sunday and 97° on Saturday which is very unusual and is attributed to the fact that the lake breezes failed during those two days.

M. G. F. Fisher, Mrs. Fernan Denton and Mrs. H. O. Mitchell returned to West Palm Beach Sunday afternoon for a pleasure jaunt.

Mrs. Richard F. Morris will entertain at dinner on Sunday, August 17, in honor of Mr. Morris' birthday. Wallace E. Stone and Edward King, members of the state survey party, will be guests.

Ruth and Ross Lee, two small nieces of Mr. and Mrs. R. C. Stevens, have returned to their home in Miami for a two weeks vacation at Lake Harbor.

Miss Mona McKibbitt of West Palm Beach is spending the week with her aunt and uncle Morris at Lake Harbor.

Wm. Jeffries, engineer in charge of the Miami lock pumping plant, reports that the tank of Diesel engine was tapped by thieves Wednesday night and some two thousand gallons taken.

V. C. Denton, on being interviewed regarding his opinion as to water conditions and the probable effect on the crops, said that he pressed himself as optimistic. It is his opinion that since we have been spared and practically all of the normal rainfall for the year, rainfall from now on will probably prove to be abundant and the consequence much land will be available for farming by the time the fall season opens.

Hiram Lawrence and County Solicitor Roebuck of West Palm Beach enjoyed a fishing trip to Lake Okechobee Sunday evening. He accompanied them as guide and led them to the good fishing grounds so that they returned well pleased with the days sport.

W. H. Robertson, the "tar heel" boy from Fayetteville, N. C., accompanied by J. M. Farrar of West Palm Beach, well known in this vicinity because of his Red Cross work in this section during the rehabilitation of the Everglades, visited South Wednesday and returned to his home on the road en route to Bartow, from which they had to be rescued.

Leslie Hyman, Larch, Morris and Hamill of Lake Harbor attended the drainage meeting at Lake Harbor Tuesday evening.

V. C. Denton and two sons, Valpeas and Vance went fishing on the lake near Belle Glade recently and returned with ten large bass, the greater portion of which fell to the skill of V. C. Denton.

Mr. and Mrs. Stewart of West Palm Beach and daughter Ruth of Glenwood Springs, Colo., are visiting friends in South Bay.

WYSE WRITES OF TRIP TO WEST

John H. Wyse, principal of the South Bay school, is staying at 1704 28th St., Miami, Fla., during the next three weeks, awaiting the opening of the Palm Beach county school in September. He has just returned from a trip to California, having visited relatives in Glendale, Cal., in a letter to The Everglades News Professor Wyse says:

"I drove through to Glendale from Columbia, S. C., leaving on a Tuesday and arriving eight days later. I would have made the trip in less than a week if I had not spent almost two weeks in Fort Worth.

"About the only unusual incident worth telling about was that I made the entire trip without seeing a drop of rain until I ran into a cloudburst in the desert somewhere between Pecos, Texas, and Denham, New Mexico. I found out, after I got to Los Angeles, that I had been driving through a heat wave from Fort Worth to San Diego, which as you know, is practically nothing but desert. The way I knew it was sufficiently hot, all right, but I thought it was nothing more than the regular desert heat. In some places the temperature was 125 degrees in the sun. I have no idea what it might have been in the shade, because there wasn't any shade that I could notice.

"It is standard custom for tourists to drive through the desert in close all the windows of their cars, to keep out either the heat or the windblown sand, or both. That's what I did.

"Most of the roads were fairly good, although through Alabama, Mississippi, and Texas, where they were mostly loose, dry (dust) gravel, and hard on tires. The crops in the desert, where there seemed to be in very bad condition, due to lack of rain. The crops in the line here, where there was no rain since then (about two weeks ago) to relieve the condition.

"It seems strange that there has been so much rain in the Everglades and so little elsewhere, doesn't it?

"Hoping to see you and the rest of the people in the Glades in about a month, I remain

"Sincerely,

"JOHN WYSE."
